

Call for Participation
Grace Hopper Celebration 2010
"Collaborating Across Boundaries"

September 29 - October 2, 2010, Atlanta, Georgia
<http://gracehopper.org/2010/participate/call-for-participation/>

The 10th Annual Grace Hopper Celebration of Women in Computing (GHC), presented by the Anita Borg Institute for Women and Technology and the Association for Computing Machinery, is the world's largest gathering of women in computing. This year's theme "Collaborating Across Boundaries" recognizes the significant role women play in using technology to work together across various borders including gender, scientific, social, geographical, racial or political.

The Grace Hopper Celebration is designed to bring the research and career interests of women in computing to the forefront. Leading researchers present their current work, while special sessions focus on the role of women in today's technology fields, including computer science, information technology, research and engineering.

The technical conference features well known keynote speakers and invited technical speakers, panels, workshops, new investigator technical papers, PhD forums, technical posters, birds of a feather sessions, technical research papers, the ACM Student Research Competition and an awards celebration.

Submissions on both technical and professional topics are encouraged. The Grace Hopper Conference committee is requesting submissions that reflect the conference theme "Collaborating Across Boundaries" in the areas of innovation within a company, from academia, or from individual contributors. Technical submissions that cross disciplines and other boundaries are encouraged. Paper and forum submissions are reviewed, and if accepted, will be published in conference proceedings.
