

# 2011 Esri Summer Internship Program

Get a Head Start on Your Career as an Esri Intern

Students interested in careers in the software industry and geographic information system (GIS) technologies are invited to apply to the 2011 Esri Summer Internship Program. Internships are available at Esri® headquarters in Redlands, California, and in our 10 regional offices throughout the United States. The program is open to both undergraduate and graduate students.

## What You Will Gain

As an Esri intern, you'll gain valuable work experience while continuing your education or preparing for life after graduation. An Esri internship is a great opportunity to work on challenging projects and learn from top-notch staff throughout the company. While earning an income, you'll also gain personal and professional skills that give you an edge in the workplace after graduation. Internships are approximately 12 weeks in length.

## What We're Looking For

Many of our interns major in computer science, GIS, geography, or engineering, but we also have opportunities for business, law, accounting, marketing, English, and journalism majors. The most successful interns have a strong desire to produce quality work and achieve great results. We seek students who excel at working on individual projects as well as collaborating in a team environment.

## What's Next?

Visit our Web site to hear from former interns and get full details on the program, including application instructions.

[www.esri.com/grads](http://www.esri.com/grads)

Applications must be received by **March 18, 2011**.

Participants in the 2010 Esri Summer Internship Program

Interns have the opportunity to collaborate with their peers in casual team settings.

**"Having a strictly academic background in GIS, I had a somewhat restricted view of its various applications. This internship opportunity has not only given me a medium to enhance my practical knowledge, but also helped me deeply integrate important GIS concepts."**

Neha, 2010 Summer Intern

Esri is an equal opportunity employer (EOE) supporting diversity in the workforce.
