

Around the globe we're moving payments – today and into the future.

### Going our way?

FLDP's will develop a strong understanding of Worldpay's structure and procedures and will be able to enter a role within the business after the two year program completion. Upon graduation, participants will be well positioned for an accelerated path to success due to the technical and professional skills as well as the extensive network developed during the program. Additionally, participants will be strongly positioned to assume a leadership role within Worldpay soon after completion of the program.

Worldpay's Future Leaders Development Program (FLDP) will help you define where you fit professionally. You have the knowledge. You have the drive. Add two years of dynamic professional experience across four different business functions with a focus on either Finance, Technology, Operations, or Risk, Security & Compliance, and you'll be on the fast track to a leadership role in one of the 20 fastest-growing technology firms in America.

### Inspiration + Motivation

Making an impact isn't something reserved for people in corner offices. At Worldpay, it comes from people in every corner of the office. People with ambition, optimism and courage who see growth and opportunity for our company as much as they do for themselves. Our goal is that you never stop learning and you never cease to amaze – especially yourself.

As a highly competitive, two-year program that exposes participants to four rotations throughout the assigned business function. FLDP offers a future with Worldpay, strongly positioning its graduates for a leadership role soon after completion.

### FLDP Program Tracks

- Finance
- Technology
- Operations
- Risk, Security & Compliance

### Can you envision yourself with Worldpay?

If you're ready to begin making an impact, helping shape the future of how consumers and businesses make payments, then it's time to make your mark with Worldpay's Future Leaders Development Program.
