

International GTAs/GLAs perform best when they are equipped with sufficient linguistic, cultural, and pedagogical knowledge for their contextualized teaching work environment. A specialized course targeting these skills helps the international GTAs/GLAs to develop unique instructional repertoires that encompass individual communication styles, cultural backgrounds, as well as their unique identity as both teachers and graduate students.

Fall Semester 2020

**ESL 7500:**

# University Teaching for International GTAs/GLAs
