

Dear students:

Dr. Jun Kong from Dept. of Mathematics and Statistics in GSU is now recruiting students (either Master or PhD) for web application development. Qualified students will be financially supported.

Expectation:

1. Candidates are required to be good at programming languages of Ruby (on the rails framework), Javascript, Python for web development.
2. Candidates are required to be familiar with PostgreSQL, Three.JS, and OpenCV.
3. Candidates are preferred to be familiar with OpenGL, ITK, and VTK.
4. Candidates are preferred to have some experience with High Performance Computing.

To get yourself more sense of the research work in Dr. Kong's lab, please visit the following websites for more information:

https://math.gsu.edu/jkong/research_dp_demo.html

For those who are interested in this position, please send email to jkong@gsu.edu with your resume.

Thanks!

Jun Kong, PhD

Associate Professor

Department of Mathematics and Statistics, Georgia State University
