

# Professional Development

Fall 2021

## Career Development Series

A 6-week series of workshops focused on resume writing and interview practice with a heavy focus on data structures and algorithms. Recommended for students within two years of graduation, based on coursework (CSC 2720+), but open to anyone with some knowledge of data structures and algorithms.

September 2021

7:30 PM EST - 9:00 PM EST

*More info available at [bit.ly/gsu-cds](https://bit.ly/gsu-cds)*

## Problem of the Week

A 5-week coding skills practice series. Each week you'll practice a different coding problem and have the opportunity to meet with Google engineers and peers to discuss solutions. This series will cover topics like: arrays, strings, recursion and more. Recommended for students participating in introductory CS courses, but open to anyone looking to practice their skills in these topics.

October 2021

8:00 PM EST - 9:00 PM EST
