

WIENER LABORATORY INTERNATIONAL FIELD SCHOOL

SITE FORMATION, STRATIGRAPHY, AND GEOARCHAEOLOGY IN THE ATHENIAN AGORA

MAY 21–28, 2022

The **Malcolm H. Wiener Laboratory for Archaeological Science** of the American School of Classical Studies at Athens (ASCSA), in collaboration with the ASCSA's Athenian Agora excavations, is offering a full week-long Field School on “**Site Formation, Stratigraphy, and Geoarchaeology in the Athenian Agora.**” **Dr. Panagiotis (Takis) Karkanis**, Director of the Wiener Laboratory, and **Dr. Paul Goldberg**, Senior Visiting Professor, Institut für Naturwissenschaftliche Archäologie (INA), University of Tübingen, will supervise the intensive field school. Registered students will be involved in interdisciplinary field research in the Athenian Agora primarily focused on archaeological context, geoarchaeology, and material sciences. Through field observations, laboratory analysis, and lectures, students will receive instruction in the study and analysis of archaeological sediments and deposits, as well as gain experience in the recording of stratigraphy, and the understanding of site formation processes.

Please note that some accepted participants from the postponed 2020 season will be part of the 2022 program. Therefore, **a maximum of 5 additional students will be accepted for the course.** Preference is given to advanced students and post-docs with a background in archaeology, and preferably some exposure to the natural sciences as well.

Room and board: 350 euros for the week (travel costs to Greece and the site are not included)
